A SLIGHT delay in the issue of the present work has enabled the publishers to make it far more complete than would otherwise have been possible. Some idea of the changes it records may be gained from the fact that more than 2,030 names have been removed from, while 2,410 have been added to, the Alphabetical List in this edition, which may safely challenge comparison, as regards copiousness and accuracy, with any similar completion. The body of the work contains also a novel feature, a Singapore directory having, for the first time, been included.

The Appendix as usual, contains a vast amount of information, and the Index of Advertisements will afford useful hints to residents of all classes.

### Circular.

The Undersigned solicits the Bankers and Mercantile Community to post all Letters, &c., as early as practicable, especially when sent in large numbers, as facility is given to the Post-Office in discharge of its duties, and greater security afforded to the public by such a course; whereas great inconvenience, and frequently confusion, occurs through the whole of the correspondence from many of the large Firms being sent to the Post Office at the last moment, before closing the Mails for Europe, by both the English and French Packets.

## MONEY ORDER REGULATIONS.

1.—On the 1st of October next, and thenceforward, Money Orders will be issued at this Office and at the Agencies thereof at Shanghai and Yokohama on all the Money Order Offices in the United Kingdom of Great Britain and Ireland, for amounts not exceeding £10, at the rate of Exchange Current for each Mail and charged with Commission according to the following Scale, viz:—

For Sums not exceeding.....£2.....	18 cents.
Above £2 and not exceeding .....	5.....36 "
„ 5 „ .....	7.....54 "
„ 7 „ .....	10.....72 "

2.—No Money Order to include a fractional part of a Penny.

3.—Orders drawn in the United Kingdom upon Hongkong, Shanghai, and Yokohama, will be paid at the rate of Exchange of the day of the receipt of the advices of such Money Orders at the places named.

4.—Alphabetical List of over 8,700 Money Order Offices in the United Kingdom, shewing the Counties in which they are situated, are hung up for public reference at this Office, and also at Shanghai and Yokohama.

5.—Applicants for Money Orders must furnish, in full, the surname, and, at least, the initial of one Christian name, both of the Remitter and the Payee; if the Remitter or Payee be a Peer or a Bishop his ordinary title will be sufficient, if a firm, the usual designation of such firm, such as “Baring Brothers,” will suffice, but the mere term Messrs., such as “Messrs. Rivington,” or the name of a Company trading under a title which does not consist of the names of the persons composing it, such as “Caron Co.,” is inadmissible.

6.—The Remitter, on stating that the Order is to be paid only through a Bank, to have the option of giving or withdrawing the name of the Payee, in such case the Order will be crossed in the same way the Cheques are commonly crossed when they are intended to be paid through a Bank.

7.—When an Order is presented through a Bank, a receipt by any person will be sufficient provided the Order be crossed with name of the receiving Bank, and be presented by some Person known to be in the employ of such Bank.

8.—The signature of the Payee of a Money Order to be affixed to the Order in the place provided for the purpose. If the Payee be unable to write he must sign the receipt by making his mark in the presence of a Witness, who must sign his name, with his address in presence of the Officer who pays the Order.

9.—Should the Payee of a Money Order desire to receive payment in the Country in which the Order was issued, at some other Office than that in which the Order was originally drawn, the transfer will be granted, provided the Order be inclosed to the Postmaster of the Office in which it was drawn. In such case a new Order will be issued, the Commission chargeable upon which will be deducted from the amount of the new Order.

10.—In the event of a Money Order miscarrying or being lost, a duplicate will be granted on a written application from the Payee (containing the necessary particulars, and accompanied by an additional Commission) to the Office where the original Order was payable.

11.—On the receipt of a similar application, orders will be given to stop payment of a Money Order, or to renew a lapsed Order. The additional Commission in the last

case will be deducted from the amount of the new Order. Lapsed Orders must be presented with the application for a new Order.

12.—But when it is desired that any error in the name of the Remitter or Payee should be corrected, or that the amount of a Money Order should be repaid to the Remitter, or that a Lapsed Order should be renewed for payment in the Country in which the Order was originally drawn, application must be made to the Chief Money Order Office of such Country. This application must be accompanied by an additional Commission, unless it have reference to a Lapsed Order, in which case the Commission will be deducted from the amount of the New Order.

13.—Repayment, whether of an original, or renewed, or a duplicate Order, will not be made to the Remitter until it has been ascertained that the advice has been cancelled at the Office on which the Order was originally drawn.

14.—Payment of an Order must be obtained before the end of the Sixth Calendar Month after that in which it was drawn; for instance, if drawn in January, payment must be obtained before the end of July, otherwise the Order will become lapsed, and a new Order (for which a second Commission, to be deducted from the amount of the Order, will be charged) will become necessary.

15.—If an Order be not paid before the end of the Twelfth Calendar Month after that in which it was drawn,—for instance, if drawn in January and not paid before the end of the following January—all claim to the Money will be forfeited, unless, under peculiar circumstances, the Post Office of the Country in which the Order was drawn thinks proper to allow it.

16.—After once paying a Money Order, by whomsoever presented, the paying Office will not be liable to any further claim. If a wrong payment, however, be made owing to negligence on the part of any Officer of the Post Office, the Postmaster General of the Country or Colony in which the negligence occurs will, if he see fit, require the Officer in fault to make good the loss.

17.—No Money Order will be paid unless the advice has been previously received.

18.—Additional Rules for greater security against fraud, and for better working of the system generally, will be made as occasion may require.

19.—Should it appear that Money Orders are used by mercantile men, or others, either in the United Kingdom or at Hongkong, Shanghai, or Yokohama, for the transmission of large sums of money, the British or Colonial Post Office, as the case may be, will consider the propriety of increasing the Commission, and will exercise the power of wholly suspending for a time the issue of Money Orders.

By Command,

F. W. MITCHELL,  
*Postmaster General.*

General Post Office, Hongkong, 22nd August, 1868.

1.—With reference to the Notification of the 22nd ultimo, it is hereby further notified by direction of His Excellency The Governor, that, on and after Monday, the 2nd November next, Money Orders will be granted at this Office on the Post Offices at Shanghai and Yokohama, and in like manner Money Orders will be granted at Shanghai and Yokohama upon this Office, for sums not exceeding Fifty Dollars, at the ruling rates for Dollars, charged with the following rates of Commission, viz:—

On Orders not exceeding \$25,.....	15 cents.
Above \$25 and not exceeding \$50,.....	80 „

2.—The Money Orders will in such case be drawn in Dollars and Cents.

3.—All payments for Money Orders, whether by the Public to the Post Office, or by the Post Office to the Public, will be made in Current Dollars.

4.—The stipulations contained in the Notification of the 22nd August last, so far as they are applicable, will be enforced in conducting the local Money Order system between Hongkong, and Shanghai and Yokohama.

## HYDROGRAPHICAL MEMOS.

*(From the China Pilot.)*

*Tides.*—It is high water, full and change, in Hongkong Roads at 10h. 15m., and springs rise about  $4\frac{1}{2}$  feet. The tides around the island are irregular, flowing and ebbing without any apparent change of direction at the surface, and sometimes there appear to be only one tide in 24 hours.

*Directions.*—Hongkong Road is generally approached by sailing vessels from the westward, on which side it is protected by Green Island and Kellett Bank, which extends nearly  $1\frac{1}{2}$  miles northward from the latter island, and carries a depth of  $3\frac{1}{2}$  fathoms. It is sometimes approached from the eastward through the Ly-ee-moon Pass during the N.E. monsoon, but the winds are generally baffling under the high land.

When abreast Green Island, if the vessel be of heavy draught, keep the peak of Lamma Island (Mount Senhouse, 1,140 feet high) open westward of Green Island S.  $\frac{3}{4}$  E. until Devil's Peak (on the mainland near Ly-ee-moon Pass) is in the line with the White rock on the south point of Won-chu-chau, or Stone-cutter's Island, when a S.E. by E. course will lead northward of Kellett Bank, and direct for the anchorage.

Vessels of proper draught can proceed over Kellett Bank or through the 4 fathoms channel between Green Island and the south part of the bank, by passing about  $1\frac{1}{2}$  cable northward of the Island and then steering for the road.

The narrow channel between Green Island and Hongkong may be taken if a fresh fair wind blows *right through*.\* Many sailing vessels have used it, amongst which were H.M.'s ships *Modeste*, *Wellesley*, and *Vernon*. It has depths of 10 to 12 fathoms in the middle, shoaling to 8, 6, and  $4\frac{1}{2}$  fathoms after passing the small islets eastward of Green Island.

*Tytam Bay and Harbour.*—There are several small bays on the southern shore of Hongkong, all of which are safe for small vessels; but at the south-east part of the island is a deep inlet, named Tytam bay,  $2\frac{1}{2}$  miles deep,  $1\frac{1}{2}$  miles wide at entrance, free from danger, and carries a depth of 10 to 16 fathoms. Tytam head, the western point of entrance, is a high bluff, with 18 and 14 fathoms near it; from thence the western shore of the bay trends about N. by E. three-quarters of a mile to a small sandy bay, with a rocky islet fronting the beach. About half a mile northward of the islet the land forms a round projecting point, and northward of this point is a large bay with a sandy beach, in which is Tytam village.

Tylong head, or Cape D'Aguilar, off which are two green islets, forms the eastern point of entrance of Tytam bay, and from thence the eastern shore of the bay bends round to the northward for 2 miles, and terminates in a small inlet, called Tytam harbour, carrying 4 to 6 fathoms, but its head, to the northwest, is shoal and rocky. This bay would be useful to a vessel in the event of her being near Wag-lan at the close of the day, with the probability of a dark and tempestuous night, for by running in she will at any rate be snug, even if there should be a typhoon during the night.

*Water.*—At the head of Tytam harbour there is a rivulet of fresh water, which, however, cannot be procured without inconvenience when the tide is low. Water may be obtained at Tytam village, on the western shore of the bay.

*Tides.*—There is little tide in Tytam bay, and, like all the places hereabouts, it is difficult to fix the time of high water, owing to the variety of channels, and the wind greatly influencing the tidal streams; but the rise and fall is about 7 or 8 feet at springs, and about 3 or 4 feet at neaps. The ebb sets to the eastward between Lo-chau and Hongkong.

ARTICLE 4.—The Foreigner who on his arrival within the Territory of the Islands shall fail to present his Passport or some other document which identifies his person, will remain under the surveillance of the authorities and be detained, until his legal position be ascertained. The competent authorities will decide whether he shall be expelled as a vagabond, or confined, or remitted to a third power as a political emigrant; obliging him, in the last case, if he presented himself with arms, to deliver them up immediately, that they may be returned to the country whence he proceeded.

ARTICLE 6.—The Foreigner established in the Philippine Isles, who shall not comply with the obligation of registering himself at the corresponding Provincial Government and at the Consular Agency of his nation, if there be any, shall forfeit all rights with respect to any claim or petition made in his favour by the Consulates of his country, and if he should resolutely refuse to register himself, he shall be treated as a vagabond, and shall not be permitted in any case to continue his residence in the Territory of the Islands.

# Signal Station.

## VICTORIA PEAK, HONGKONG.

The *Union Jack* will be hoisted at the Mast-head when any vessel is being signalled.

The *Red Ensign* at the Mast-head will denote that a British Functionary of Rank is on board of a Vessel approaching.

The *National* or *House Flag* will be hoisted over the symbol, when either is flying on board the vessel signalled.

The signals of Vessels in the offing will be repeated. In making *signals to Men-of-war* in the Harbour or in the offing a White Ensign will be hoisted at the Flag Staff, and at the Mast-head, of the Men-of-war.

The *Commercial Code of Signals for all Nations*, will be used at the Staff. All *distance signals* will be made at the Mast-head, and all *Compass Bearings* will be made at the Yard.

On a *Steamer* or the *smoke of a Steamer* being sighted, the *Compass bearing over the proper symbol* will be hoisted at the *Yard-arm*; and the *distance off* in miles will be hoisted at the *Mast-head*. The *Distance Signal* will be kept up ten minutes and the *Compass signal* until the *Steamer* is made out. When the *Steamer* is made out, if it is an English, French, or American Mail Steamer, a gun will be fired and the *distance off* at that moment will be hoisted under a ball at the *Mast-head*. The *Compass Signal* will then be hauled down and the proper *National* or *House Flag* will be substituted for it. The *Mast-head Signal* will be kept up ten minutes, and the *Yard-arm Signal* until the *Steamer* anchors.

For any other than a Mail steamer, the same signals, with the exception of the gun and ball, will be used.

River Steamers will not be signalled. Other Steamers from Macao and Canton will be made known by shewing the *National Flag*, and symbol, at *West Yard-arm* only.
